www.linkedin.com/in/shayde-yamagata

IT student with 3+ years of campus experience, progressing from client service representative to supervising a team of 34. Combines technical support and troubleshooting with hands-on security operations experience in threat hunting, log management, and vulnerability management, including cutting vulnerabilities by 38%. Ready to resolve user issues quickly and reduce security risk in an entry-level IT help desk or analyst role.

EXPERIENCE

Business Analyst Student Supervisor
BYU–Hawaii, BYUH Office of Information Technology (OIT) | Laie, HI

August 2026 – Present

- Supervise 34 student employees: train team leads, organize projects, and align students and Business Analysts as one cohesive team

ITO Student Lead (Business Analyst Planner)
BYU–Hawaii, Information Technology Operations (ITO) | Laie, HI

May 2025 – August 2025

- Partner with full-time Business Analysts to manage projects and daily operations for assigned departments
- Support project planning and business meetings by scheduling sessions, documenting discussions, and providing the student perspective
- Served as primary coordinator for annual desktop, laptop, and monitor replacement across 5 departments, delivering 200+ devices and becoming the departments' point of contact for technical needs

IT Security Specialist
BYU–Hawaii, BYUH Office of Information Technology (OIT) | Laie, HI

August 2025 – July 2026

- Supported the Security Operations Center (SOC) in Provo as on-site security help for the Hawaii campus, performing risk management, log management, and threat hunting with CrowdStrike Falcon
- Created and implemented a vulnerability management SOP that helped reduce vulnerabilities from 13,000 to 8,000 (about 38%)
